EXPERIENCE

UNIVERSITY OF CENTRAL FLORIDA - MARKETING

Web Developer, 08/2015 - Current

- Worked in various web technologies including Python, Wordpress, PHP, jQuery, and HTML/CSS to build and support web applications and sites to further University initiatives.
- Developed Wordpress websites and PHP & Django applications locally and deployed code to development and QA environments using Jenkins and GIT version control.
- Utilized Adobe products including Photoshop and Illustrator to design and develop web sites and web pages for marketing and promotional material.

CLOUDSPACE

Front-End Web Developer and Designer, *04/2012 - 08/2015*

- Worked independently and as part of a team to build web applications and design interfaces.
- Implemented web application designs utilizing HTML/CSS, the AngularJS framework, and Javascript/jQuery.
- Communicated with clients to make updates and feature requests on existing systems in a variety of languages, including Ruby on Rails and PHP.
- Updated and maintained legacy systems built in PHP and MySQL.
- Managed local development environments using Vagrant and VirtualBox to help facilitate easy development and deployment of code, utilizing Capistrano and GIT.

UNIVERSITY OF CENTRAL FLORIDA - CENTER FOR DISTRIBUTED LEARNING

Techranger & New Media Developer, *02/2006 - 12/2012*

- Designed and developed web applications and websites with an emphasis on accessibility and usability.
- Collaborated in a team of developers as well as cross-functional teams which included graphic designers, subject matter experts, and instructional designers.
- Presented at conferences and professional development venues including the EDUCAUSE Learning Initiative (ELI) and the American Association of State Colleges and Universities (AASCU).
- Provided online course production development and technical support for online learners.

EDUCATION

UNIVERSITY OF CENTRAL FLORIDA

Bachelors of Arts: Digital Media, December 2012
